

Medal Count & Medal Percentage By Individual School

IMAS is thrilled to announce that starting this year, there's an exciting new way to boost your school's competitive edge at IMAS events! Based on data that we have pulled out of the Top Ten List, we've developed a system that calculates the medal percentage by school based on each school's potential medal haul and the number of medals your competitors won.

Here's how it works: For each competitor, we tally up the potential medals they could win based on their registered events. For example, if a competitor signs up for the Main Event plus the Free-Style Weapons Forms competition, their total medal count would include Traditional Forms, Flag Sparring, Point Sparring, and Free-Style Weapons Forms, resulting in FOUR possible medals. *Note: Board Break Challenge is a separate "challenge" event and isn't included in the competition medal count.*

By dividing the number of medals won by the potential medals a competitor could win, we can determine each school's overall medal percentage, including the gold, silver, and bronze medal percentages. This percentage measure levels the playing field and allows us to see which schools were most successful at bringing home the gold, pound for pound.

We are super excited about what this progress and these stats mean for IMAS schools, and we can't wait to recognize and award the schools that are consistently at the top of this list. Thank you for being on this exciting journey to elevate the level of competition and camaraderie within our martial arts community. We look forward to seeing you at our next IMAS event!

2024 IMAS Fall Nationals Total Medal Percentage
By Individual School Location

| School | Medal Opportunities | Gold Medal Count | Silver Medal Count | Bronze Medal Count | Medal % |
|-------------------------------|---------------------|------------------|--------------------|--------------------|---------|
| Graham, Blake Edmond, OK | 3 | 0 | 0 | 3 | 100.0% |
| Pechacek Carrollton, TX | 17 | 9 | 3 | 2 | 82.4% |
| Ashwood Forney, TX | 16 | 6 | 6 | 1 | 81.3% |
| Crocco Brunswick, NJ | 12 | 1 | 5 | 3 | 75.0% |
